TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Hollis in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Hollis on Tuesday, the eleventh day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

Polls will open from 9 A. M. to 6 P. M.

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To hear the reports of the Selectmen and other Town Officers and Committees.
4. To see if the Town will vote to authorize the Treasurer under order of the Selectmen to borrow money in anticipation of taxes.
5. To see if the Town will vote to accept State Aid for the construction of Class V roads and appropriate the sum of \$898.25.
6. To see if the Town will vote to authorize the Selectmen to distribute blank inventories at the time of appraisal.
7. To see if the Town will vote to allow 1 % discount on taxes paid before August 1st 1952 and assess fines of twenty cents on all poll taxes not paid by September 1st 1952.
8. To see if the Town will authorize the Selectmen to use the Capital Reserve in the Town Map fund to be used in developing a tax map of the Town.
9. To see if the Town will vote to have one Road Commissioner for the whole town instead of a Road Commissioner for each district.
10. To see if the Town will vote to raise and appropriate the sum of \$100.00 to buy land of the Ladd property to enlarge the area in front of the Town Sheds.
11. To see if the Town will vote to raise and appropriate the sum of \$150.00 to buy land of Henry Hildreth to enlarge the East Cemetery.

12. To transact any other business which may legally come before this meeting.

Given under our hands and seal, this twenty-fifth day of February, in the year of our Lord nineteen hundred and fifty-two.

WOODBURY D. BELL
ROSCOE L. BROWN
WINTHROP L. CARTER, JR.
Selectmen of Hollis, N. H.

A true copy of warrant—Attest:

TRA Program

During the year 1951 5.38 miles of road were gravelled and 8.0 miles were treated with MC No. 3 asphalt under the TRA program.

The roads gravelled were the following:

	Miles
Ridge Road	1.35
Federal Hill Road	1.04
North Pepperell Road	.85
Witches Spring Road	.56
Van Dyke Road	.33
Hayden Road	.33
Pine Hill Road	.23
Ames Road	.16
Fletcher Lane	.14
Howe Lane	.14
Gilson Road	.10
Nartoff Road	.08
Plain Road	.07
	5.38

The roads retreated were the following:

	Miles
Worcester Road	2.7
Wheeler Road	2.1
Pine Hill Road	1.9
Ranger Road	1.0
Love Lane	.2
School Yard	.1
	8.0

The total cost of the 1951 TRA program was \$7,434.73. The source of this money was as follows:

1. Paid by State of New Hampshire	\$5,989.27
2. Appropriated by Special Vote of the Town	898.39
3. Portion of Town Summer Road Appropriation	547.07
	\$7,434.73

Of the total amount \$4,335.20 (or \$806 a mile) was devoted to gravelling and \$3,099.53 (or \$387 a mile) was devoted to re-treating.

The entire Hollis TRA program was under the supervision of Charles Dow.

During the year 1952 the Town will have the opportunity to vote to accept a similar amount of TRA funds from the State. Although the State permitted us in 1951 to spend our TRA allocation in widely separated areas, we have been requested in 1952 to devote the funds to the improvement of entire roads. In this connection the State Highway Department has proposed to send a staff expert to consult with the Selectmen and Planning Board to study traffic conditions in Hollis to determine which roads require first attention.

HEALTH OFFICER'S REPORT

Although many cases of minor children's diseases, such as Chicken Pox, Measles, etc., have been reported this year, there have been no serious outbreaks of the major contagious diseases.

Let us continue this good record and report all contagious diseases to the local Health Officer immediately.

Once more may I warn you about the law prohibiting the disposal of garbage and rubbish along our highways or any other improper place.

A town dump is maintained at considerable expense for your convenience. Please help keep this accessible by throwing your rubbish over the bank, and remember we also have a garbage collection service. *Do not throw garbage in the dump.*

A clean, healthy community is our best advertisement, and our best protection for our citizens.

E. R. SIMONDS

Health Officer

FIRE CHIEF'S REPORT

The fire record for 1951 shows 29 fire calls and 2 calls for the resuscitator. There were 11 chimney fires, 11 grass and brush fires, 1 child's clothing and 6 buildings with a total loss to 1 small camp and 1 henhouse.

Prompt calls for aid have resulted in keeping wood fires small and prevented more extensive damage to buildings.

With the permission of other town officers we have developed an emergency lighting system to be used with the sexton's portable generator.

The Fire Department is most grateful for the overwhelming response to the resuscitator fund. Just over \$1000.00 was received. We purchased the resuscitator outfit, also an excellent collapsible cot stretcher with towels and blankets and have about \$250. left which will be used to purchase oxygen or some equipment to make a more complete emergency unit.

WARREN H. TOWNE

Fire Chief

CIVIL DEFENSE REPORT

Civil Defense activity has been at a minimum this year although all our committees are intact and ready for operation if the necessity arises.

Several articles of first aid equipment have been ordered which may be used in any emergency, however, expenditures have been kept at a minimum and we hope that this coming year there will not be any.

Should an emergency or disaster occur, the following names head the various operational units:

Assistant Director—Daniel Brocklebank

Communication—Henry Hildreth

Refuge Unit—William and Marion Sproule

Fire Fighting Unit—Warren Towne

Police Unit—Jack Woods

Engineering Unit—Timothy O'Neil

Transportation Unit—Frank Whittemore

Medical Nursing Unit—Marion Hanson

Health and Sanitation Unit—Elmer Neary

Rescue and Evacuation—Howitt Warren

Administrative—Norma Morison

Boy Scouts—Lucian Lalibertie

We are still in need of volunteers to help in many of these units. If you do not have a job now and are willing to assist in this program, contact any one of the above list of names.

E. R. SIMONDS

Local Civil Defense Director

REPORT OF FOREST FIRE WARDENS

In the past year your local forest fire organization did a very fine job of pre-suppression and suppression of forest fires. Our early spring was very dry and with extra high winds and all our fires were during that period. We find that the general public is still very careless with matches and cigarettes.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call, "I don't care," he is the person that builds fires anywhere, never gets a permit to burn brush or has a safe place for his home incinerator. He is also very careless with matches and cigarettes. The other one is called, "I don't know any better," and the best way to describe him is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our pretty and valuable woodland to be destroyed by fire. Even your own home can be burned by them.

It is up to you and you alone to report these characters to your local forest fire warden whenever you see them operating. To have our woodlands green and our mountain streams clear, your cooperation is needed by:

1. Seeing that your incinerator is tight and is sitting on clear ground.
2. Always clean a space about any open fire to prevent it from spreading.
3. Never burn in dry, windy weather.
4. In all cases a written permit is required from your local town fire warden.
5. Be sure that your matches, cigarettes and pipe ashes are out before discarding.

It is with your cooperation that this shameful waste of timber and money can be stopped.

NUMBER OF FIRES — 1951

Number of fires, 5. Acreage burned, $5\frac{1}{4}$. Number of burning permits issued, 240.

WARREN H. TOWN

Forest Fire Warden

G. O. HOLLIS

District Chief

REPORT OF TOWN FOREST COMMITTEE

At the last Town Meeting the Selectmen were instructed to appoint a Town Forester. They were also instructed to spot cut and follow any other approved forestry practices to improve the stand of timber in Spalding Park and other wood lots owned by the Town.

After some discussion it was thought best to have a Town Forest Committee of five, since there is no salary and considerable work and five men should have more constructive ideas than one. Jeffrey Smith, Franklin Worcester, Albert Parker, Gaylord Price and Henry Hildreth were appointed.

Since Spalding Park is leased to the State the Selectmen contacted the Forest and Recreation Commission regarding thinning the pine stand there. Mr. Sullivan of the Recreation Division and Norman Gardner, one of the management foresters of the Forestry Division looked over the park with the committee. They approved thinning the pine and several other projects. A little later M. Gardner, accompanied by one of the committee marked two acres as a guide.

It was decided to cut part of the pine in the Dickerman Lot. This is the pine lot on the west side of Silver Lake Road and north of Hayden Road, set up as a part of the Town Forest at the 1937 Town Meeting. It contains more than 20 acres. Howard Parkhurst contracted to cut the logs and deliver them to Price's mill. Price sawed them and stuck out the lumber by widths in his mill yard. 56,520 feet, log measure were cut.

Robert Breck, the County Forester, who has been a great help to the committee, marked ten thousand feet as a guide. Parkhurst selected the rest of the trees to be cut. He bought the tops, small trees and poor quality hardwoods and turned them into pulp, fence posts and cordwood. He did a very fine job and we hope to have him cut some more this year. He tried to leave the better trees and remove the smaller, scrubby trees.

Some of the lumber was used for forms etc. on the new bridge on Ames Rd. About one thousand feet is to be used by the road agents to build sand boxes for trucks etc. The rest was sold in 1952 after bids were turned in by five lumber dealers. The final figures have not been received.

Several loads of gravel have been placed on Gould Road in the Park, this will be paid for in 1952. Several hundred feet of the road system have been cleared of brush. The stone bounds of the Park have been checked. Quite a bit of work has been done towards finding the lines on the 140 acres in the 4 lots owned by the Town north of the Park. There is a lot of young pine coming in there. A chopping bee for library wood was held in December, four cords of wood and forty highway guardrail posts were cut. We hope to have another and anyone interested in this or other projects should contact the Committee.

We hope to cut another 50 thousand feet in 1952, mostly in the Dickerman lot, and some pine pulp in the Park. There are several areas of hurricane blowdown that are covered with nice young pine. These should be weeded of the overtopping small hardwoods. A little time spent now will pay off in the future. We plan to set out a few hundred pines in spots where pine can not come in naturally.

It may be possible to have the people who are planning to order pine seedlings from the State to contact the Committee and make out one order and have a truck go to Gerrish for them. They are free to the Town and from \$4.50 to \$8.00 per thousand to others.

SUMMARY OF BLISTER RUST CONDITIONS

January 1, 1952

The original Blister Rust work in Hollis was done between the years of 1920 and 1925. As a result of this early work, over a period of five years, 33,738 currant and gooseberry bushes were destroyed and all the pine in the town was given sufficient protection from the disease to avoid the losses which are now evident in some towns which were not able to complete their initial Ribes eradication at this early date.

Additional work was not done until 1951; which interim, exceeds the control plan by about twenty years and has allowed some infection to become established on pine. Although the second work could most profitably have been started in 1926, certain unusual meteorological conditions* have favored the delay, and at this time the Ribes population in some areas has built up to the point where they must be removed if serious loss from the disease is to be avoided.

The 1951 work covered slightly less than half the area of the town and the remainder of the pine areas should be given the required protection in 1952. If the work is not completed in 1952 it may be necessary to request a small appropriation in 1953.

The present Blister Rust Control Area of the town comprises 19,138 Acres and in 1951 we were able to work on 8,091 Acres; completing the required protection on 8,076 Acres. This acreage of 8,076 is now on what is termed a "Maintenance Basis" and should not need further Blister Rust control measures for at least ten years.

Our goal for Blister Rust Control in Hollis is to complete this second eradication work and place the entire control area on a maintenance basis. As soon as this is done; no further immediate work should be necessary for at least ten years.

* Hurricane

WHITE PINE BLISTER RUST CONTROL SUMMARY

Land Area of Town	20,872 Acres
Blister Rust Control Area	19,138 Acres
Pine Area (Estimated)	8,000 Acres
Initial Eradication Completed (1920-1925)	19,138 Acres
Second Eradication Completed (1951)	8,091 Acres
Area on Maintenance 1951	8,076 Acres

SUMMARY 1951 SEASON

Town Funds Spent	\$339.40
State and Federal Funds Spent	142.88
Total	\$ 541.88
Area Covered	8,091 Acres
Ribes Destroyed	7,194
Work to be done in 1952 (Second)	11,047 Acres

PLANNING BOARD

Report of the Hollis Planning Board for 1951 :

Two important projects, involving several years work, were completed by the Planning Board in 1951.

A map was made showing the location of each piece of property, street and road names, and other important information for the identification and location of Hollis people, properties and places. Much credit for this is due to the cooperation of Clarence Cudworth on the draftmanship, Erving Simonds, Elmer Neary, Franklin Worcester and the Selectmen on locating and naming of property owners. Three hundred copies of the map were printed and sold. Enough was realized on the sale of the maps to pay for the costs. The many changes in property in town since the completion of the map are very apparent, and it is recommended that this map be revised regularly. Present maps are still available at the Red & White Store in Hollis and Philip Morris & Co. in Nashua.

A revision of the Zoning Laws has been in process for three years. The cooperation of the New Hampshire State Planning & Development Board was most helpful in seeing this to a completion with the special town meeting in January, 1952, passing them as effective. The map was a necessary first step in locating the natural business and recreational areas from a zoning point of view. Two hearings were held as required by law, and minor suggestions and changes made. Legal advice and wording of the laws was secured from the town attorney. A reprint of the final and accepted Zoning Ordinance is contained in this town report.

Through a contact furnished by Henry Hildreth, the Planning Board and Selectmen have had one meeting with an official of Fort Devens toward a plot map of Hollis that is hoped will supply much information in fixing the boundaries of many of the properties and land in town. This is another step toward the tax map and tax inventory card system recommended for the town's use in assessing and property identification and location. No progress has been made on completing the aerial map, and it has been recommended that we try to find a new source of available aerial shots to re-start this project.

It has been suggested that some study be made of road development, surfacing and repair, as a long-term planning project. Some private discussions have been held on this with interested parties, and it is planned to be continued as a Board project.

As always, the Planning Board urges and will appreciate any suggestions of immediate or long-term projects for the town's future benefit.

Respectfully submitted,

H. CLIFFORD MANNING,
Chairman

EDNA F. HILL, Secretary

~~PROPOSED~~ ZONING ORDINANCE
for the
TOWN OF HOLLIS, NEW HAMPSHIRE
~~Recommended by the Town Planning Board~~

An ordinance to promote the health, safety, morals, convenience and general welfare of the community by regulating and restricting the use and construction of buildings and premises in the Town of Hollis.

PREAMBLE: In pursuance of authority conferred by Chapter 53, section 14, Revised Laws of New Hampshire 1942 and by Chapter 51, sections 50-71, Revised Laws of New Hampshire 1942, as amended by Chapters 110 and 278, Laws of 1949, and for the purpose of promoting the health, safety, morals, prosperity, convenience or general welfare, as well as efficiency and economy in the process of development, of the community of the incorporated Town of Hollis, New Hampshire, by securing safety from fire, panic, and other dangers, providing adequate areas between buildings and various rights of way, by preserving the rural charm now attached to this town, the promotion of good civic design and arrangement, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements, and by other means in accordance with a comprehensive plan, now therefore the following ordinance is hereby enacted by the voters of the Town of Hollis, New Hampshire in official special meeting convened.

SECTION 1

For the purpose of this ordinance the Town of Hollis is divided into districts as defined below.

District 1. *Residential and Agricultural*

To include all of the Town of Hollis not otherwise included in District 2, Recreational.

District 2. *Recreational*

To include all land within one-quarter mile from the shores of Silver Lake, Flint Pond, Pennichuck Pond, Dunklee Pond, Rocky Pond, and Nissitissit River.

SECTION 2

Definitions: For the purpose of this ordinance, certain terms or words used herein are defined as follows:

1. *Home produce and products* means and includes everything of an agricultural nature grown, produced, conditioned or otherwise carried on the property of a resident, also such articles as are manufactured or altered by members of the household of a resident.

2. *Public right of way* means and includes all town, state and federal highways and the land on either side of the same as covered by statutes to determine the width of rights of way.

3. *Permanent resident*. A person shall be considered a permanent resident when he has used any building continuously as a residence for a period of six months or more.

4. *Tourist home*. A dwelling in which accommodations are provided or offered for transient guests for compensation.

5. *Hotel*. A building which contains more than twelve rooms which are provided or offered to guests as accommodations for sleeping, and which provides or offers to guests accommodations for eating, for compensation.

6. *Front yard*. An open unoccupied space extending for the full width of a lot between the extreme front line of the building thereon and the nearest side of the right of way or mapped street line.

7. *Frontage*. The distance that a front yard borders on the right of way.

8. *Logging Camp*. A camp built of such material and in such a manner that it is only for temporary use during the cutting and handling of logs, cordwood or other such material.

9. *Camp*. A building of such a nature that it may be used for recreational and dwelling purposes during seasonal parts of the year.

10. *Overnight cabin*. A building which is provided or offered as accommodations for transient guests for compensation.

11. *Tourist or motor courts* shall mean and include two or more overnight cabins operated as part of a single business.

12. *Family*. One or more persons occupying the premises and living as a single housekeeping unit.

SECTION 3

District No. 1, the Residential and Agricultural Area, shall enjoy the following provisions:

1. It shall be a district of farms, residences and businesses. Logging camps will be permitted in this District as hereinafter provided in section 4, paragraph 2.

2. No building shall house more than two families as permanent residents, except that upon permit of the Board of Adjustment, residential structures existing prior to the adoption of this ordinance may be converted to provide for more than two but not more than four families, provided the structure is not increased in volume and meets the requirements for yard space hereinafter provided in paragraph 3 of this section 3 and the requirements for dwelling unit space hereinafter provided in paragraph 9 of this section 3.

3. Front yards shall have a minimum depth of twenty-five feet provided that no front yard need be deeper than the average of the depths of such yards on the lots next thereto on either side, except that in no case shall a building be located nearer than ten feet of the nearest right of way or mapped street line. A vacant lot or a lot occupied by a building with a yard more than twenty-five feet deep is considered as having a front yard twenty-five feet deep. Every building hereafter constructed, erected, altered or moved shall set back at least fifteen feet from the side and rear lot lines. This paragraph shall not apply to roadside stands erected for the purpose of selling or exposing for sale home produce and products.

4. Home produce and products may be bought and sold and exposed for sale in this District.

5. Hotels and tourists homes may be maintained and operated in this District.

6. No overnight cabins, tourist or motor courts shall be permitted in this District except where such structures are to be supplementary to an established hotel or tourist home and are to be located on the same lot. Such structures as are permitted under this section shall be subject to the provisions for overnight cabins, tourist and motor courts hereinafter set forth in section 4, paragraph 5.

7. Private schools and sanitariums are permitted in this District.

8. A person doing business shall be allowed two advertising signs, which shall not total more than twenty square feet in area. This restriction shall not apply to signs painted or placed on a building. Property owners shall be allowed signs pertaining to the sale, lease or use of the lot or building on which the same may be placed, but such signs shall not total more than five square feet.

9. Building Area. No building or set of buildings shall occupy more than thirty per cent of the lot on which it or they may be located and each lot shall have a frontage of at least one hundred feet. Each family dwelling unit must contain not less than 500 square feet of floor area, exclusive of unenclosed porches.

10. No owner of land in this District shall permit any building or structure which is partially or wholly destroyed to remain in such condition for a period of more than two years, nor shall the owner of any land in this District permit any building or structure to remain in a state of incomplection for a period of more than two years. Such owner shall cause such building or structure to be reconstructed or removed, or completed, as the case may be, within said period. In the event of violation of this paragraph, the Board of Selectmen may cause such building or structure to be removed, and shall charge the cost of such removal to the owner of the premises on which the same was located, except that the Board of Selectmen may, in cases of hardship or for other good cause shown, grant such owner a single extension of time for the reconstruction, removal or completion of such building or structure not to exceed one year.

11. No business not in operation at the date of the passage of this ordinance shall be allowed except by special permit of the Board of Adjustment. This provision shall not apply to farming.

12. No business not in operation at the date of the passage of this ordinance shall be allowed which is injurious, noxious or offensive to the town or the neighborhood in which it is proposed to be located, by reason of the emission of odors, fumes, dust, smoke, vibration, noise or any other cause.

13. The Board of Adjustment in granting a permit for a new business shall prescribe such conditions as to location, size of buildings, front and side yards, setbacks, parking facilities, roadways, storage areas and other features as may be required to protect the character of the town or neighborhood and to insure orderly development of the community.

The Board of Adjustment may grant a conditional permit for a temporary period where there is question as to the effect that a business might have on the community.

14. Trailers. No trailer shall be used as a residence in this area for more than three months without a permit from the Board of Selectmen. Upon application made prior to the expiration of the three months period, a permit may be granted by the Board of Selectmen for a six months extension of this period. In no event shall any trailer be used as a residence for more than nine consecutive months out of any twelve months period.

SECTION 4

District No. 2, the Recreational Area, shall enjoy the following provisions:

1. Except as otherwise specifically provided, all the provisions applying to District 1 shall apply in District 2, and in addition camps will be permitted.

2. Logging camps shall be allowed by permit of the Board of Selectmen only during the active working of a lot and shall be removed when such work is finished. In granting of permits, the period of use permitted shall be stated.

3. Camps shall be finished in a permanent manner.

4. Building Area. No building or set of buildings shall occupy more than thirty per cent of the lot on which it or they may be located and each lot shall have a frontage of at least seventy-five feet. Each family dwelling unit must contain not less than 500 square feet of floor area which may include porches covered by permanent roofs.

5. Overnight cabins, tourist or motor courts shall be permitted in this District under the following conditions:

a. Each individual dwelling unit shall have a minimum floor area of 300 square feet exclusive of unenclosed porches.

b. Each individual dwelling unit unless attached or partially attached by carport, porch, garage, or breezeway to another structure shall be no nearer than thirty feet of another structure.

c. No such structure shall be located nearer than fifty feet of any public right of way or mapped street line or nearer than seventy-five feet of any public body of water.

6. Nothing in this section or in section 5 of this ordinance shall be held to prohibit the erection of a building upon a lot having a frontage of less than 75 feet provided such lot at the time of the passage of this ordinance was held under separate ownership from the adjoining lot; or provided that at the time of the passage of this ordinance the majority of the lots fronting on the same street and between the two nearest intersecting streets are each held under separate ownership and are each of the same or less area in the lot in question.

SECTION 5

Non-Conforming Uses

1. If, at the time of the adoption of this ordinance, any land, building or structure is being used in a lawful manner, except that such use is not in conformity with the provisions of this ordinance, such non-conforming use of said land, building or structure may be continued. No interruption of such a non-conforming use shall prevent its continuance, except as hereinafter provided in paragraph 3 of this section 5.

2. Any property enjoying a non-conforming use hereunder may be altered or expanded as conditions warrant, provided such alteration or expansion does not change the nature of the non-conforming use and does not prove more offensive to the town or the neighborhood in which the property is located, because of noise, noxious odor or any other cause, than the non-conforming use prior to such alteration or expansion.

3. Whenever a non-conforming use has been discontinued for more than two years for any reason, such non-conforming use shall not thereafter be re-established, and the future use of the property shall be in conformity with the provisions of this ordinance. In such a case the Board of Selectmen may order or cause the removal of non-conforming buildings, structures or facilities and shall charge the cost of such removal to the owner of the premises on which the same were located.

4. A non-conforming temporary building may be permitted by the Board of Adjustment for use incidental to the development of a neighborhood for an initial period of not more than two years upon application accompanied by a bond and bill of sale to the town, effective in case such building is not removed at the expiration of the permit. Such permits may be renewed by the Board of Adjustment for successive periods of not more than one year each.

SECTION 6

New Development

1. The owner of any plot of ground intended for development or sub-division into two or more building lots shall file with the Board of Selectmen a plan or map of the proposed subdivision and shall obtain the approval of the Board of Selectmen thereon before proceeding with the development or sale of lots in the said subdivision.

2. It shall be the duty of the Board of Selectmen to inspect the site of such proposed subdivision and to require such roadway and other areas for common use as will eventually be acceptable to the town for maintenance by the town and to approve the proposed subdivision when the proposed plans are in harmony with and conducive to the general welfare of the town and the neighborhood, but in no sense shall this be deemed an acceptance by the town of the street or streets.

SECTION 7

Enforcement and Administration

1. It shall be the duty of the Board of Selectmen, and the Board is hereby given power and authority, to enforce and administer the provisions of this ordinance.

2. There shall be an Inspector of Buildings appointed annually by the Board of Selectmen. Such Inspector of Buildings shall serve without compensation, and no fees of any kind shall be imposed in connection with any permits or certificates required under the terms of this ordinance.

4. The Building Inspector shall issue any and all building permits requested when the proposed plans are in accordance with the provisions of this ordinance, and, if required, are authorized by the Board of Adjustment, and then only. Such permits shall expire and become invalid if construction has not been started within one year from the date of issuance.

4. Permits.

a. After passage of this ordinance it shall be unlawful to erect any permanent building or alter the bulk of any building or permanently relocate any building in any District, without first obtaining a building permit from the Building Inspector.

b. Upon receipt of an application for a permit to erect a building to be used in connection with a new business, which new business shall have received prior approval of the Board of Adjustment in accordance with the provisions of section 3, paragraphs 11 and 12 hereinabove set forth, the Building Inspector shall notify by registered mail all owners of property within a radius of 1,000 feet of the property on which the building is proposed to be erected, and shall not issue a permit until ten days after such notification has been mailed or given in person in writing.

c. Any owner of property within a 1,000 feet radius of the property on which the new business is proposed to be established, may, within ten days after such notification has been given, object in writing to the Board of Adjustment on the ground of the appearance or use of the proposed building or structure. The Board of Adjustment shall thereupon give a hearing within thirty days of the receipt of such notice of objection at which parties in interest and others shall have an opportunity to be heard, and shall decide whether the permit shall issue or not. At least fifteen days notice of the time and place of such hearing shall be given by publication in a newspaper of general circulation in the Town of Hollis and by posting at the town hall and post office.

5. No land in any District shall be used for a dump or a place for refuse, waste or junk of any kind, nor for abandoned automobiles, carriages or other vehicles, machinery or other tools or appliances without the prior written approval of the Board of Adjustment, such approval to be in the sole discretion of the Board of Adjustment and upon such conditions as it may determine.

6. Upon any violation of this ordinance, the Selectmen shall, on their own initiative, take immediate steps to enforce the provisions of this ordinance by seeking an injunction in the Superior Court or by any other proper legal action.

SECTION 8

Board of Adjustment

1. Within thirty days after the adoption of this ordinance and thereafter as terms expire or vacancies occur, the Moderator, with the advice and consent of the Board of Selectmen, shall make appointments to the Board of Adjustment of five members, in conformance with the provisions of Chapter 51 of the Revised Laws of New Hampshire, 1942.

SECTION 9

Amendments

1. This ordinance may be amended by a majority vote of any legal town meeting when such amendment is published in the warrant calling for the meeting and when such amendment has received a public hearing, which hearing has been advertised and given a legal fifteen day notice.

SECTION 10

Penalty

1. Any person, firm or corporation violating any of the provisions of this ordinance shall be fined not more than ten dollars upon conviction for each day such violation may exist.

SECTION 11

Saving Clause

1. The invalidity of any provision of this ordinance shall not affect the validity of any other provision.

SECTION 12

When Effective

1. This ordinance shall take effect upon its passage.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Hollis qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 10th day of March 1952, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town. (Nos. 1-19, 25, 26 & 27 of Budget.)
9. To see how much money the district will raise and appropriate for special repairs, alterations, insurance and new equipment. (Nos. 20-23 of Budget.)
10. To see if the district will authorize the transfer of funds from the School Building account to the School District and empower the School Board to expend said funds to pay interest on a bond due March 1, 1952, said funds being \$822.11 interest accrued on reinvestment of School Building Funds, or pass any vote relating thereto.

11. To transact any other business which may legally come before said meeting.

Given under our hands at said Hollis this 14th day of February 1952.

HENRY C. HILLS

DENTON V. LATES

BERYL R. ORDE

School Board of Hollis

THE SUPERINTENDENT OF SCHOOLS

ADMINISTRATION

INSTRUCTION

In 1950-51, of its total for education, New Hampshire spent 45.9% on teachers' salaries. Hollis expended 53.9% of its total budget for this purpose.

Since the last report, the following changes in personnel have occurred:

Teacher Leaving
George Rogers
Mrs. Myrtie Kullgren
Stella Contogogu

New Teacher
Laurie L. Harris, Jr.
Mrs. Annie Ryan
Hazel Greenwood

All three of the new teachers are experienced, although Mr. Harris is a beginner in the principalship. He is a graduate of Massachusetts and has had advanced work at Columbia. We are pleased to welcome him and his young family to Hollis. Likewise we extend welcome to the two lady teachers.

Two Hollis teachers attended school last summer and others have taken courses during this year.

In connection with instruction, I wish to call attention to the new set-up with the Souhegan Nursing Association. I feel that we are getting more for our money than we ever did. Our arrangement with the nursing group calls for the assignment of one nurse to do only school work and have other nursing assistance in times of need. This applies to all the towns of this School Union. Up to the present, the arrangement has given good results and promises still better as we get acquainted with the needs and find how much can be done. The nurse is often a teacher, she visits homes and advises, she works with teachers and pupils, she is the center of the Health Program. Her duties are manifold — visiting, examinations, follow-up work, keeping records, first aid. The nurse maintains a liaison service between the school, home and community. She has to call upon many local agencies to meet the health needs of children. I feel satisfied that we are accomplishing most of the aims we set out to reach.

Workshops for teachers are of proven value in improving the quality of instruction. The last Workshop we held in September of this school year was by far the best we have had. The subject was conservation and the quality of the leadership excellent. The teachers learned so many practical ways of teaching Conservation and now we see pupils doing many of these things. The follow-up is good and the pupils are profiting from it. When spring comes and nature begins to unfold, I am sure we will see more evidences of Conservation teaching. Another feature of this last Workshop was the fact that it was started, arranged and carried through by a teachers' committee composed largely of interested ones who attended last summer's workshop at Lost River.

The Souhegan Bank, in one of its paid ads, paid splendid tribute to our teachers as "builders of tomorrow's America." Other organizations and companies join in such tributes. We read their words in magazines and special articles. We appreciate these kind words.

FINANCE

Below I again acquaint you with some figures to illustrate per pupil costs. Exclusive of Capital Outlay, Debt, Transportation and Tuition, the per pupil costs of Current Expenses for 1950-51 are:

	Grades 1-8	Grades 9-12
Amherst	\$122.68	\$370.20
Brookline	134.92 (1-6 only)	Grades 7-12 in Nashua
Hollis	131.08	268.85
Milford	134.99	277.71
Mont Vernon	206.38 (1-6 only)	Grades 7-12 in Milford
State of N. H.	161.94	271.75

Since tuition rates are developed from these figures, you can ascertain how near or how far you are from State figures. Of course, small enrollments and relatively high costs produce higher averages than the State.

State Aid is now a reality. A formula has been developed whereby the school may receive Aid based on the number of pupils in attendance at all grade levels and on its financial ability to support them. However, not enough money was appropriated to satisfy the formula, hence a proportional reduction to each district has to be made. With this reduction, the following amounts came to this Union this fall:

Amherst	\$2,558.81	Hollis	\$4,045.48
Brookline	3,936.74	Milford	2,326.23

NEEDS

The present laboratory is inadequate in size and furniture for a Chemistry and Physics room. With the release of rooms by the grades moving to the new building, we see the opportunity to develop a good laboratory, one in which there will be room and make possible an adequate program.

The moving from the present building will also make possible some improvement in auditorium space. My recommendation is for the purchase of some folding chairs to be installed in the large upstairs room making the present furniture available for other class rooms. This big room would serve as assembly room, projection room and conference room.

It is my suggestion that some plan of redecorating be developed. It is too costly in any one school year to do the whole plant. But doing two rooms a year would spread the cost over four years in the present building.

THE TEACHER'S JOB

A rather exhaustive survey of teachers' time has recently been completed. The report indicates that elementary teachers average 11.9 hours per week in out-of-class instructional duties, 28.3 hours in class instruction and 7.7 hours in miscellaneous duties. Secondary teachers average 13.0 hours, 23.1 hours and 11.9 hours for the same three activities. The totals are 47.9 hours for the elementary teacher and 48.0 hours for the secondary. Of course these results are averages, there being many teachers who work more and some less. It is interesting to note that a 48 hour week for 43 weeks is approximately the same as a 40 hour week for 52 weeks.

Certain criticisms of teachers and education come to mind, that the 3 R's are not being taught. This is no new criticism. In my time it has not been uncommon to pick up a paper and read editorially that children cannot read, write, spell and do figures like they used to twenty years ago. Probably this has occurred once every five years or so in the years since I grew up. But the children of today can do better than those of a past generation. The evidence is very plentiful and conclusive. Probably the best one I know concerns an experiment of giving to Wellesley Junior High pupils of today the same tests given in 1886 to same grade children in Springfield. The latter averaged 29% when they took them 65 years ago while Wellesley pupils averaged 68%. To be sure many children get to high school without full skills in the fundamentals. But the explanation of this

lack is not in the teaching but rather in the great change which has occurred in America relative to school attendance. When I went to high school, only a few attended. Those who couldn't keep up with the fundamentals dropped out. Now almost all the children attend. In 1870 we had 80,000 high school students in America, now we have over 7 million. The great differences in ability, background and ambitions of all these children of all the people is now very marked. But all this merely points to the teachers' task. We have an alert staff that is trying to meet the needs of every child.

Kiplinger in a recent issue gives some good advice. Teachers want your friendship, your understanding and your help. So, why don't you visit them, get acquainted, find out their problems and not explode because they teach your child by a different method than you were taught, help in some of the projects? I feel sure you will find the results worth your effort.

APPRECIATION

Again I am grateful to the staff, to the Board and to you citizens for another year of accomplishment. The general cooperation has been good and I appreciate it.

I know you are going to enjoy the comforts of the new building. I look forward to the construction and use of this new building. I am sure you and your children will enjoy the expanded program that this project avails.

Very respectfully,

HAROLD C. BOWLEY

Superintendent of Schools

REPORT OF THE PRINCIPAL

January 21, 1952

Mr. Harold C. Bowley, Superintendent

Milford, New Hampshire

I herewith submit my first annual report as principal of Hollis Center School.

The 1951-52 school year began September 5, 1951 with an enrollment of 51 students in the High School. The present enrollment is 47 students. Of these, 10 are Seniors, 8 are Juniors, 16 are Sophomores, and 13 are Freshmen. In the Junior High there are 16 in the Eighth and 21 in the Seventh grades.

The following is a list of the subjects offered this school year and the number of students in each class at the present time.

High School		Junior High	
Subjects	Pupils	Subjects	Pupils

All classes are scheduled for four fifty minute periods a week with the following exceptions:

Physics	five sixty minute periods
Biology	five sixty minute periods
Home	seven fifty minute periods
Foods	seven fifty minute periods
Home Economics VII & VIII	three fifty minute periods
Shop VII & VIII	three fifty minute periods

School activities began with the Sophomore Party for the Freshmen held in the School Cafeteria. This event was followed by the excellent presentation of the Senior Play, "Footloose," under the able direction of Miss Pearl C. Rideout. The performance by the Juniors and Seniors was an excellent portrayal of the importance of drama in the school curriculum.

The next activity was a scrap drive by the boys' and girls' basketball teams in order to raise funds for uniforms and jackets. In conjunction with this project the girls have just completed a successful basketball supper with the very able assistance of their mothers. At this point I would personally like to thank all the parents and townspeople who made these activities so successful.

Athletic activities have consisted mostly of basketball with the exception of Friday afternoons when I have tried to develop an intramural program. The varsity basketball teams have shown exceptional school spirit and sportsmanship in their wins and defeats. Again splendid town spirit has made it possible to transport the teams to and from the out-of-town games.

A Christmas Pageant, "Babe of Bethlehem," was presented by grades 6-12 prior to the Christmas Vacation under the able direction of Miss Ethelyn Edwards. Although poor weather limited the audience, it was so favorably received that it seems every effort should be made to make this a yearly activity.

Tentative dates for other school activities scheduled to date are as follows:

Junior Prom	April 18, 1952
Senior Food Sale	May 10, 1952
Operetta	May, 1952
Senior Ball	June 6, 1952
Graduation	June, 1952

The School Lunch Program began October 1, 1951. There are approximately 175 pupils participating under the supervision of Mrs. Ruth Coleman who is in charge of the menus and buying. Mrs. Hazel Parkhurst has charge of the kitchen and is assisted by Mrs. Evelyn Morrill.

Federal Aid has been decreased to six cents per meal. Total receipts for the year 1950-51 were \$6,474.44 and the total expenditures were \$6,882.46. Federal Aid amounted to \$1,832.69.

Improvements in the Lunch Room have been the building of three fourteen foot tables, horses and benches by the seventh and eighth grade boys. All tables have been covered with linoleum.

Seniors graduated June 13, 1951 and their fields of endeavor:

Bessie Adams	Becker Junior College
Constance Adams	Houle's Beauty School
Donald Brown	University of New Hampshire
Frances Brown	At Home
Jannette Colburn	Doehla Card Company
Betty Cudworth	Colby Junior College
Margaret Gloyer	(Working at) Price's Mill
John Johnson	University of New Hampshire
Phyllis Kanterovich	Keene Teacher's College
Barbara Lawrence	Boston University
Virginia Lund	Nashua Business College
Eleanor Pauling	Keene Teacher's College
Herman Rood	Armed Services
John Senter	Plastics
Constance Smith	Becker Junior College
Bernice Stefanowicz	Sprague Electric

The following students had perfect attendance for 1950-51:

Elementary—Helen O'Neill, Edward Chamberlain, Richard Bell, George R. Covey, Judith Hills, Raymond Covey, and Roger B. Cummings, Jr.

Junior High—Peter Sedlewicz, Joan Hyde, and Marilyn Glover.

High School—Ruth Evelyn Brown, Nadia Glover, William Lawrence, and Frances Wright.

The school has received a monetary gift from the Alumni Association part of which is to be used in the purchase of a button attachment for the Home Economics classes and the remainder to purchase reference books for the school.

Since assuming my duties as Principal of Hollis Center School, I have been very favorably impressed with the fine character of the students. Their school spirit, seriousness of purpose, manners, and cooperation deserve special commendation.

The crowded classrooms in grades 1-10 should be considerably reduced with the completion of the new Elementary School. It should provide much better opportunities for pupils and teachers alike in striving to reach their educational goals. Also the ever present possibility of a disaster in the event of a fire will be greatly minimized.

Fully realizing the additional expense that the new school will mean to the Town of Hollis, but at the same time keeping in mind the educational objectives of preparing students for citizenship, future education, and employment, it seems to me that we should keep in mind the necessity for a commercial course in our school system.

In closing I wish to express my appreciation for the cooperation and aid given me by the Superintendent, Pupils, School Board, Teachers, and Townspeople.

Respectfully,

LAURIE L. HARRIS, JR.

Principal

REPORT OF THE SCHOOL BUILDING COMMITTEE

The first meeting of the Building Committee was held April 11, 1951, at which time the following officers were elected:

Chairman, Henry Hills; Secretary, Beryl R. Orde; Treasurer, Arthur G. Davis.

Choice of an architect and a school house site was the first phase of the committee's work. These both required many meetings of the committee and also meetings with specialists in various fields. Mr. Paul Farnum of the State Board of Education was most helpful in getting us off to a good start. In considering the choice of an architect, the committee visited new schools in Deerfield, Antrim, Merrimac and Harrisville, all designed by different architects. We talked with members of the building committees in all of these towns. Mr. Irving V. Hersey of Durham, N. H., was chosen after interviewing several architects. He offered to submit plans for a six classroom school, with service rooms and a combination lunch-assembly hall, that could be built for approximately \$95,000.00.

Little did the committee realize the scarcity of land suitable for a school house in this rural community. The present school house lot, lots on Pepperell Road, Depot Road, Nashua Street, Ash Street and Silver Lake Road were carefully considered. The prices of these lots ranged from \$2,000.00 to \$6,000.00. Some of them could not be purchased at any price. A lot of seven acres on Silver Lake Road was purchased from Mr. William Lassins for \$2,000.00. Because of the sewage disposal problem, it proved to be the only site within the limits of the amount appropriated, providing through its topographical contours a natural sewage disposal system, thereby not necessitating the installation of a costly filter bed. This site was approved by Mr. Francis J. Lariviere of the State Board of Sanitation and Mr. Paul Farnum of the State Board of Education.

The Public Hearing by the Board of Investigation to grant permission to borrow in excess of 5% of our latest assessed valuation, namely 7.14% or \$103,000.00 was held in the School House, June 6, 1951. The transcription of the testimony given at the meeting cost \$111.00. This permission was granted by the Governor and Council on June 22, 1951.

The next phase was the consideration of the Bonding Company to issue and sell the Bonds. We met with representatives of several Bonding Concerns and decided to accept the offer of F. W. Horne & Company of Concord, N. H., to prepare a \$103,000.00 issue of 2% bonds payable in 16 years. These bonds were dated September 1, 1951 and are to be payable \$6,000.00 on September 1st in each year, 1952 to 1960, both inclusive, and \$7,000.00 to be payable September 1st in each year, 1961 to 1967, both inclusive, with interest payable semi-annually on March 1st and September 1st of each year.

It was necessary before beginning construction, to secure Federal Authority for the allotments and ratings required for the procurement of controlled materials. This entailed the filing of forms and letters of appeal with Dr. N. E. Viles of the Federal Department of Education and with the National Production Authority at Washington, D. C. Due to this delay most of the money was invested in U. S. Treasury Bills for six months, earning \$690.50 in interest. We also received \$131.61 in accrued interest from F. W. Horne & Company.

Plans and Specifications for the building were issued on October 20, 1951 to ten contractors. On November 6th we met at the schoolhouse at 4 o'clock to receive and open the bids. The following were submitted:

Blanchard Stebbins	\$ 96,204.00
C. M. Bacon Co.	105,342.00
David W. Davidson	107,721.00
L. E. Martel	108,995.00
Bagley-Mucci, Inc.	108,976.00
Harvey Construction Co.	113,248.00
I. W. & P. B. Currier	146,304.00

After consideration of the sub-bidders and plan alternates, Blanchard Stebbins was selected as contractor with a bid of \$94,702.00. Incidentally this was the only bid within the District's appropriation. The difference between this amount and \$115,000.00 is to cover the expenses of land, water, equipment, etc.

We secured the advice of Mr. Henry Gross of Biddeford, Maine, of Water Unlimited, Inc., in locating water for a well. A back-hoe was used for all digging as there was no ledge. The well is 21 feet deep, stoned up for 10 feet with granite and topped with 42 inch tile. The granite was given by Mr. C. D. Fletcher of Maynard, Mass., through the efforts of Mr. Charles Dow. Outside the granite is crushed stone. There are six streams of water into the well. The total cost of the well was \$1,004.00.

The most important of the controlled materials, steel, was promised for a May delivery, but part of it has already been delivered. Mr. Stebbins hopes to start work the last of March, depending on the weather. If no further obstacles present themselves, it is expected that the building will be ready for occupancy in September.
